

MULTI TASK SUPPORT TEAM

The Multi Task Support Team or MTST™ is a flexible, well-managed and self-contained risk management team which provides enduring solutions to a client's needs.

Each MTST™ is initially based around 3 or 4 operators and one multi-purpose 4WD vehicle. The modular concept creates flexibility and allows rapid expansion or contraction to occur as the project requires. Depending on the project requirements, the MTST™ can be weighted to provide a stronger medical, logistical or communications component in addition to its core security and risk mitigation functions.

The MTST™ concept was created by HRL after our experience of operating in remote and often hostile environments. The key to this success story is the combination of HRL's global knowledge and expertise with the careful selection of high-quality individuals who are experienced, professional and comfortable working autonomously. Each MTST™ is supported by HRL's global network providing 24/7 monitoring, real-time information and intelligence, logistical support, management oversight and quality assurance processes.

SERVICES

Each MTST™ is tailored to each client's individual needs, but is typically capable of providing the following services:

- Emergency planning and exercises
- Security Project Management - access control systems, CCTV installation, security infrastructure projects
- Relationship Management - coordination and liaison with local authorities and key enablers
- Training Support - coordination of client security training, including driving, hostile environment and medical

- Operations Room Manning - communications monitoring (UHF, VHF, Satellite Phones), satellite tracking and CCTV
- Monitoring and oversight of local security sub-contractors
- Access and Movement Control
- Mobile perimeter and key asset patrols
- Security to remote site operations
- Security for workforce accommodation and office compounds
- Local intelligence gathering and distribution
- Escorting of high-value products and equipment

BENEFITS

- A bespoke MTST™ for each client
- Multi-purpose and integrated
- Cost effective
- Reliable
- Modular
- Flexible
- Supported by our global network
